Just for documentation purposes.

I received an additional task from OEM regarding Epaosc site content as well this evening.

I anticipate working 12 hours today and 6 hours tomorrow.

I will fill out the overtime request when I am in the office.

Brian,

As per our conversation, we will switch the content to private since it has the same effect of removing the content from public view but preserves its use for the EPA personnel.

The profile section text of:

Deliberative Process/Ex. 5

Deliberative Process/Ex. 5

Deliberative Process/Ex. 5

"

was replaced with

"All official information and data on the Gold King Mine Response is located at:
epa.gov/goldkingmine"

Dan Burgo switched all documents to Private.

I will proceed to switch all the images to private. There are 200 images and I have to do them individually so it will be awhile before its complete.

Joe, as discussed with Chris Ruhl please classify all documents and links associated with the website to Exclusive and post the following message and link to front page of the website to direct the public to the EPA.gov website. If you have any additional questions please contact me at the Dep EOC Email or give me a call on my cell at 202-322-9008. Thanks,

Brian
